Do plans indicate slopes with greater than 12% gradient _____ Y/N _____ N/A

I, the undersigned owner/contractor, do hereby agree to comply with section 21.125 (3)(a) of the UDC in that during the period of construction at site, all erosion control procedures necessary to meet the performance standards of this section shall be properly implemented, installed and maintained by the building permit applicant or subsequent owner. If erosion occurs after building construction actuates have ceased, some or all of the erosion control procedures shall be maintained until the site has been stabilized.

I, the undersigned owner/contractor hereby agree to comply with section 21.123 c of the UDC in that sediment deposition occurring as a result of a storm event shall be cleaned up by the end of the next work day following the occurrence. All other off-site sediment deposition occurring as a result of construction activities shall be cleaned up at the end of the work day.

I, the undersigned owner/contractor hereby agree to comply with section 21.125 b of the UDC in that sediment tracked by construction equipment from a site onto a public or private paved roadway or sidewalk shall be minimized by providing a gravel or other non-tracking access roadway. This roadway shall be installed no later than the time the foundation is backfilled. The sediment cleanup provisions of section 21.125 c are unaffected by the presence or absence of an access roadway.

I, the undersigned owner/contract hereby acknowledge that I/we are subject to noncompliance notices and subsequent citations if erosion control measures are not properly installed and/or maintained as specified in section 21.125 of the State Building Code.
